NEW ACQUISITIONS
OF
OLD SCIENTIFIC BOOKS
OFFERED

AT CONVENIENT PRICES.

Prices in U.S.A. Dollars.

1. Paracelsus. Philosophiae ad Athenienses drey Buecher. - Von Ursachen und Cur der Epilepsie. - Vom ursprung, cur und heilung der contracten glidern. Three parts. 102(103) leaves. 4to. Modern half vellum. Cologne, heirs Byrkmann, 1564. U.S.A. Dollars 6.50
Sudhoff 65. - Contains Paracelsus' great book on EPILEPSY, one of the earliest, really important works on this subject. - Only one leaf (the last of the third treatise) wanting, the tract on epilepsy and the 'libri philosophiae' are complete.
2. Joannes Actuarius. De urinis libri septem. A. Nolano interprete. A. Tylesius. De coloribus. Paulus Aegineta. De crisi ac diebus decretoriis et eorum signis. A. Lemnii epistola de urinae studio. 8 leaves, 447 pp. With woodcut (urin-glass). 8vo. Old limp vellum. Basle, Cratander, 1563. \$ 10.50
Choulant, Handbuch, v. 154. - "Actuarius' monograph upon the increasingly popular subject of uroscopy was later accepted as authoritative and classic". - Complete copies as ours containing all the above mentioned treatises are rare. - Good copy.
3. Raullin, J. Traité des maladies des femmes en couche. 20 pp., 384 pp. With portrait. 8vo. Old calf. Paris, 1771. \$ 2.75
4. Hippocrates. Opera. Add. commentaria J. Marinelli. Two parts. 4, 215, 2 and 140 leaves. With printer's device. Folio. Old vellum. Venice, Valgrisius, 1575. \$ 5.00
Somewhat waterstained, margins of the first three leaves mounted.
5. Hailes, St. Statica de' vegetabili et analisi dell'aria. 4 leaves, 368 pp. With 20 engraved folding plates. 8vo. Vellum. Naples, 1756. \$ 4.50
Good edition of this important work.

6. (Chiromancy). - P o r t a, G.-B. Della chirofisionomia overo di quella parte della humana fisionomia, che si appartiene alla mano. Tradotto da un manoscritto latino da P. Sarnelli. Engraved title, 12 pp., 168 pp, 6 leaves. With folding plate(hand). Small 8vo. Boards. Naples, 1677. \$ 12.50
First and apparantly unique edition of the little known work which is not to be confounded with Porta's "Physiognomia". - Nice copy.
7. P o r t a, G.-B. Dei miracoli et meravigliosi effetti della natura prodotti libri IIII. 16 leaves, 164 leaves. Venice, 1560. \$ 7.25
First edition of the first Italian translation, published two years after the Latin original. Porta's 'Magiae naturalis' was the best known work on popular sciences, including medicine, in its time.
8. R u y s c h, Fr. Observationum anatomico-chirurgicarum centuria. Acc. catalogus rariorum quae in museo Ruyschiano osservantur. Two parts. 8 leaves, 138 pp., 2 leaves, 120 pp. With 46 copper plates. Amsterdam, 1691 - Thesaurus anatomicus I, II, III, IV. 4 leaves, 62 pp., 1 leaf, 2 leaves, 98 pp., 2 leaves, 70 pp., 1 leaf, 55 pp. With 13 copper plates. Amsterdam, 1701-04. Two different works bound together. 4to. Original boards. \$ 16.00
First edition of Ruysch's chief work. Contains important and very esteemed tracts on gynaecology, anatomy, pathologic anatomy, surgery, dentistry(Sudhoff, Geschichte der Zahnheilkunde p. 170), venereal diseases(Proksch II, p.406). etc. etc.
9. B e o s t e, A. Le chirurgien d'hopital, enseignant une manière de guérir promptement toutes sortes de playes. Avec un moyen d'éviter l'exfoliation des os et une plaque inventée pour le pansement des trépan. 20 leaves, 368 pp. 8vo. Old calf. Paris, 1696. \$ 3.00
First edition of this well known work.
10. P e u, Philippe. La pratique des accouchemens. 12 leaves, 613 pp. With eight interesting copper plates of embryologic interest. Stout 8vo. Paris, 1694. \$ 7.50
First edition of this valuable, French work on obstetrics. - Without the portrait, besides absolutely complete copy.
11. R e d i, Fr. Esperienze intorno a diverse cose naturali e particolarmente a quelle che ci son portate dalle Indie. 3 leaves, 152 pp. With six engraved plates. 4to. Half vellum. Florence, 1686. \$ 4.75
Gamba 816. Very interesting treatise of this celebrated naturalist, dealing especially with exotic plants. The plates represent the pepper tree, vanilla, Chinachina, etc.
12. R e d i, Fr. O p e r e. Con la vita dell'autore. Seven vols. bound in five vols. With 32 most interesting copper plates. Vignettes on the titles. 4to. Original half calf. Venice, 1762. \$ 12.50
Good edition of the collected works of this great scientist. - One quire in the first volume existe twice, while another therefore is missing; besides absolutely complete copy.
13. P o z z i, G. Epistolare anatomicum. Orationes duae. 89 pp., 1 leaf. Small 4to. Original boards. Bologna, 1732. \$ 2.75
Pozzi(1697-1732), professor at the university of Bologna, was a valuable anatomic writer. The above work contains a.o. the author's tract on the 'Thymus-gland'. - Some waterstains.
14. P a y v a, Rodrigues de. Epicrisis de affectu atrabilario, Mirachiali: sive de morbis cerebri, et mentis, qui extra cerebrum originem ducunt. 4 leaves, 40 pp. 4to. Boards. Rome, 1751. \$ 4.75

15. (On teeth). - P l e n c k, G. J. De' morbi de' denti e delle gengive.
3 leaves, 110 pp. 8vo. Original boards. Venice, 1786. § 6.75
This work on teeth was very popular in its times.
16. K u l m, A. Tabulae anatomicae, acc. annotationes et tabulae aeneae.
4 leaves, 215 pp. "With engraved frontispiece and 28 engraved plates. Large 8vo. Vellum. Rome, 1748. § 4.50
This work was one of the first to be introduced in the Far East, and had a great influence on the development of medicine in Japan and China. - Upper margins waterstained.
17. R i o l a n, Jean. Encheiridium anatomicum et pathologicum. 9 leaves, 471 pp., 12 leaves. 8vo. Orig. vellum. Leyden, 1649. § 3.00
"The best anatomical text-book of the time". - Unfortunately the frontispiece and the plates, occurring in this edition, missing, the text itself complete; therefore the low price.
18. H a r r i s, W. De morbis acutis infantum. 4 leaves, 51 pp., 2 leaves. 8vo. Calf. Amsterdam, 1698. § 5.25
Good, early edition of this excellent work on children's diseases which was the popular treatise on pediatrics for about 100 years.
19. (M o r g a g n i, G.B.). In Aur. Corn. Celsum et Q. Ser.Samonicum epistolae. 2 leaves, 117 pp. 4to. Boards. Leyde, 1735. § 2.75
20. S é g u i e r, J. Fr. Bibliotheca botanica sive catalogus auctorum et librorum omnium qui de re botanica, de medicamentis ex vegetabilibus paratis tractant. Acc. Bibliotheca botanica. 16, 450, 66 pp., 1 leaf. Large 4to. Original boards. Hague, 1740. § 15.00
Pritzel 8586. First edition! - An indispensable, bibliographical work in the history of botany. - Fine copy.
21. (Myology). - Anfangsgründ der Muskellehre. 1 leaf, 20 pp., 49 leaves. With 61 excellent copper plates. Folio. 18th century calf, back gilt. Vienna, Gassler, 1786. § 12.25
Unknown to Choulant. - A rare, anonymous work on myology, with excellent copper plates. - Very fine copy of this uncommon work.
22. O r i b a s i u s. In aphorismos Hippocratis commentaria. Edited by Guenther of Andernach. 4 leaves, 273 pp., 1 leaf. With frontispiece. 16mo. Half calf. Padova, 1653. § 3.50
Choulant, Handbuch, p. 124.
23. R o e d e r e r, J. . De valvula coli dissertatio. 2 leaves and 60 pp. With plate. 4to. Unbound. Strassburg, 1768. § 2.00
24. C a e l i u s A u r e l i a n u s. De morbis acutis et chronicis libri VIII. J.C. Amman recensuit. 2, 32 leaves, 728 pp. With frontispiece and many engravings in the text. 4to. Old vellum. Amsterdam, 1722. § 4.75
Choulant, Handbuch, p. 209: "Bis jetzt beste Ausgabe".
25. C e l s u s. De medicina libri octo, brevioribus R. Constantini, Is. Casaubonii illustrati. Studio Th.J. ab Alemeloven. - Qu. Serenus Samonicus. De medicina praecepta saluberrima. Two parts. 3 leaves, 36 pp., 598 pp., 16 leaves; 1 leaf, 115 pp., 2 leaves. With portrait of Celsus. 8vo. Old vellum. Padova, 1722. § 3.50
Choulant, Handbuch, p. 171. Valuable edition which contains three letters by Morgagni on Celsus.

26. B o u r g e o i s, Louise. Observations diverses sur la stérilité, perte de fruit, foecundité, accouchements et maladies des femmes et enfants nouveaux naiz. Two parts in one volume. 3(8)leaves, 8,223 pp.2 leaves; 6 leaves, 251 pp., 12-16 pp.(nothing wanting here). With historiated frontispiece. 8vo. Half calf. Paris, 1617. \$ 17.00
 Louise Bourgeois, midwife to Maria de Medici, whom she attended through her six labors, was one of the very first women who wrote on midwifery. "Bourgeois is one of the pioneers of scientific midwifery. Her book was the vademecum of midwives of the time"(Power-Thompson). She was a pupil of Ambroise Paré. Her book contains many important, original contributions to this science. - Only five preliminary leaves which are without importance to the text, in the first part missing. As a rule, copies of this work, are incomplete. Our copy has the complete text of this important work.
27. W e c k e r, Jacobus. Medicinae utriusque syntaxes, ex Graecorum, Latino-rum, Arabumque thesaurus. 18 leaves, 752 pp. Large printer's device. Stout folio. Half vellum. Basel, E. Episcopus, 1576. \$ 16.00
First edition of this very extensive work which gives a good survey on the medical knowledge of these times. The first part is exclusively dedicated to anatomy, and based principally on Vesalius' Fabrica, with full quotations from this work. ~~Besides there are dealt with~~ dietetics, pharmaceuticals, internal and external diseases, detailed pharmaceutical prescriptions for any disease, etc. - Index badly bound. Some waterstains at beginning and at the end. - R a r e !!
28. (Salerno, School of). Schola Salernitana de valetudine tuenda, opus nova methodo instructum. Acc. animadversiones novae R. Moreau. 24 leaves, 828 pp., index. 8vo. Old calf. Paris, 1672. \$ 3.00
 Small wormhole through several leaves.
29. S a r p i, Fra Paolo. Lettere italiane, scritte da lui al signor Dell'Iso-la Groslot dopo il 11 dicembre 1607 sino alli 2 Settembre 1618. Ed alcune scritte al signor Gillot. 24 leaves, 623 pp. 16mo. Vellum. Verona, 1673. \$ 4.25
 Osler has an English edition of Fra Paolo's Letters(1693).
30. B l a n c a a r d, St. Anatomia reformata sive concinna corporis humani dissectio. Acc. de balsamatione. 6 leaves, 659 pp., 7 leaves. With the author's excellent portrait, fine engraved title, showing a dissection, and 65 (67) very interesting anatomical plates. Stout 8vo. Calf. Leyden, 1695. \$ 7.00
 "Blancaard succeeded in 1675 for the first time in injecting the capillary vessels"(De Lint, Atlas of Anatomy, with reproduction). Only two plates missing, therefore the low price. - Fine copy.
31. H e i s t e r, L. Compendio anatomico. Agg....la dissertazione intorno la membrana corioidea dell' occhio(on the eye). 10 leaves, 280 pp. With 10 engraved plates, showing anatomic details. 4to. Boards. Venice, 1782. \$ 3.00
 "The leading German surgeon of the age was L. Heister who made the first post-mortem section of appendicitis and introduced the term tracheotomy"(Garrison). - Contains an important treatise on the anatomy of the eye.
32. (On pedicure). - L a f o r e s t. L'art de soigner les pieds. Un traité sur les cors, verrues, etc. 2 leaves, 138 pp., 1 leaf. 8vo. Paris, 1781. \$ 3.00
 One of the earliest works on pedicure.
33. M a c c h e l l i, N. Tractatus de morbo Gallico. 56 leaves. Small 8vo. Modern half vellum. Venice, A. Arrivabene, 1555. \$ 9.50
 Proksch I, p. 16. First edition of a very rare book on syphilis.

34. C o n r i n g, H. De hermetica medicina libri duo; primus de medicina, pa-
riterque de sapientia veterum Aegyptiorum; altero non tantum Paracelsi
sed etiam chemicorum doctrina examinatur. 11 leaves, 448 pp., index.
4to. Half calf. Helmsstadt, 1669. \$ 8.50
"Conring was opposed to Paracelsists, and refused to acknowledge the
existence of an Egyptian Hermes or of Egyptian medicine and chemi-
stry"(Ferguson). - Dedicated to Colbert. - Browned.
35. M e s u e, Junior. De re medica libri tres. Jac. Sylvio interprete. 8 and
200 leaves. 8vo. Wrappers. Paris, 1561. \$ 5.75
Choulant, Handbuch, p. 356. - This edition is valuable on account of
the commentary by Jacobus Sylvius. - Nice copy.
36. D i o s c o r i d e s. De materia medica libri sex, In Greek. De venenatis
animalibus libri duo. Index omnium plantarum, animalium, metallorum.
Carmina de virtute plantarum. 12 leaves (last blank), 243 (badly num-
bered 235) leaves, 1 leaf. Large 8vo. Full red morocco binding, gilt
edges. Venice, "in aedibus Aldi et Andreae Soceri", 1518. \$ 47.50
Brunet II, 733. Pritzel 2292. Choulant, Handbuch, p. 78.
The first 16th century edition of Dioscorides, preceeded only by the
extremely rare and precious first edition of 1499. Beautifully prin-
ted entirely in Aldus' famous Greek letters - a real gem of early
printing art. - With Latin preface by Franciscus Asulanus, and notes.
37. P r e s t w i c h, J. Dissertation on mineral, animal and vegetable poi-
sons, containing a description of poisons in general, their manner
of action, effects on human body and respective antidotes. 4 pp.,
331 pp. With 11 nice copper plates (plants). Calf. London, 1775.
Fine copy. \$ 5.25
38. (On the eye). - D u L a u r e n t, A. Discours de la conservation de la
veue (on the eye). - Des maladies melancoliques des catarhes et de la
viellesse. 6 leaves, 272 (276) pp. 16mo. Vellum. Rouen, 1600. \$ 6.75
Very rare! One of the earliest, important books on the eye.
Four pages in the second part missing; the treatise on the eye abso-
lutely complete.
39. (M a t t h i o l i). - P i n a e u s. Historia plantarum, earum imagines
nomenclaturae qualitates. Acc. Simplicium medicamentorum facultates
ex Dioscoride. 640 pp., 229 pp., 13 leaves. With many hundreds of
nice small woodcuts of plants. 24mo. Calf. Lyons, 1561. \$ 11.75
Pritzel 5994. First edition of this nice pocket edition with commen-
tary of Pinet.
40. (Guenther of Andernach). - G a l e n u s. De compositione medicamentorum
per genera libri septem, Joanne Andernaco interprete. 595 pp., 6
leaves. 16mo. Vellum. Lyons, 1552. \$ 3.75
One of the best editions of Galenus' pharmaceutical work with the
excellent commentary by Guenther von Andernach. - Some letters of the
title erased. Margin of one leaf repaired.
41. M a s c a g n i, Paolo. Prodromo della grande anatomia. Four stout vols.
Large 8vo. With portrait and 48 excellent anatomic copper plates.
Original wrappers. Milan, 1821. \$ 12.25
Choulant-Frank, p. 317 says: "In this second edition of the Prodromo,
the arrangement of the text and the illustrations are more instructive
and more appropriate. The first 36 plates pertain to the anatomy of
the human body, the following nine to that of animals, and the last
three to the anatomy of the plants." - Good and complete copy.

42. Phinella, Ph. De metoposcopia astronomica. De duodecim signis coelestibus. 4 leaves, 216 pp. With more than 400 cuts of heads in the text. Small 8vo. Half calf. Antwerp, 1650. § 7.00
Caillet 8632. First edition of a curious work on metoposcopy, containing a large number of prognostics. - Scarce!
43. Hippocrates. Opera omnia. J. Cornario interprete. Novis argumentis per J. Culman editis. 4 leaves, 588 pp., 57 leaves. Large printer's device. Half vellum. Folio. Lyons, 1564. § 9.75
Very valuable and beautifully printed edition with the famous commentary of J. Cornarius, augmented by Culman. - Our copy shows on the title former owner's inscriptions of two physicians: "Ex libris Joannis Bonnier 1578", and "Ex libris petri Dousseaulmi Medici Doctoris Mospeliensis". Numerous, interesting marginal annotations from the same hands through the book. - Beautiful woodcut initials.
44. Schnellenbergius, Tarquinius, latine Ocyorus. Von zwentig Pestilentz Wurtzeln und Kreutern (on twenty herbs against plague). 55 leaves. With 21 nice woodcuts of plants. 8vo. Half vellum. Frankfurt, 1563. § 9.50
Pritzel quotes other editions. Describes a.o.: "Herba angelica, botanica, pimpinella, basilica, laurus, peganon, tormentillavalericana, vermut", etc. - One leaf slightly torn. A few stains.
45. (Pharmaceutics). De la Chapelle, Passerat, Cl. Fr. Recueil des drogues simples, contenant les remèdes et les préparations chimiques. 8 leaves, 537 pp., 1 leaf. 8vo. Old calf. Paris, 1753. § 3.00
We only mention: "Des émétiques, des diurétiques, diaphorétiques, des cordiaux, céphaliques, carminatifs, astringens, antivénériens, remèdes ophtalmiques, des vésicatoires", etc. etc.
46. Ricettario Fiorentino. 5 leaves, 284(296)pp., 25 leaves. With engraved title and several, very large woodcuts showing furnaces. Folio. Vellum. Florence, 1597. § 8.50
Scarce, early edition of the very first official pharmacopoeia. It was edited by the College of Medicine at Florence. - 6 leaves missing, the title and a few leaves of the index only slightly damaged, besides complete copy. - A real bargain price.
47. (Jenner). - Penada, J. Riflessi sull' innesto della vaccina. 16 pp. 8vo. Half vellum. (Padova, 1801). § 6.00
Penada, physician at Padova, was a violent antagonist of Jenner's discovery. The above treatise is one of the earliest tracts written in Italy against Jenner.
48. (Jenner). - Odier, L. Memoria sopra l'innoculazione della vaccina in Ginevra. 8 pp., 46 pp. 8vo. Half vellum. Padova, 1801. § 7.00
The rare first Italian edition of Odier's work on his experiences with preventive inoculation, one of the first experiments made on the Continent.
49. Brassavola, A.M. Examen omnium syruporum quorum publicus usus est. 232 pp., 3 leaves. 8vo. Vellum. Lyons, 1544. § 6.00
Well known pharmaceutical treatise. - Brassavola (1500-1556), a pupil of Leonicensus, wrote a witty imaginary conversation entitled "An examination of medical simples" and several others (Examen syruporum, etc.) in which some new drugs are permanently introduced into the pharmacopoeia. Several marginal annotations.

50. B o n a n n i, A. P. Ph. Recreatio mentis et oculi in observatione animalium testaceorum. 9 leaves, 270 pp., 5 leaves. With two frontispieces two titles, and 136 engraved plates showing testaceous animals, and 3 slips. 4to. Half calf. Rome, 1684. \$ 9.00
Brunet I, 1086. Interesting work of this famous Italian scientist. The first three books deal with the different testaceous animals; the fourth part contains a rich collection of 138(our copy 136) instructive copper plates. One title and two plates in our copy missing.
51. H a r v e y, William. De motu cordis et sanguinis in animalibus anatomica exercitatio. Cui acc. J. Walaei epistolae duae, quibus Harveji doctrina roboratur. 6 leaves, 227 pp. 12mo. Original boards. Padova, Sardi, 1643. \$ 65.00
Keynes, Harvey, n° 4, with reproduction of the title(quotng only seven copies). - OF GREATEST RARITY !! - The first edition of the 'De motu cordis' to contain Walaeus' important contribution to Harvey's discovery. - Our copy is absolutely complete in its text, only the two plates, occurring in this edition, missing; therefore the real chance price for this extremely rare edition.
52. B o y l e, Robert. Medicina hydrostatica, sive hydrostatica materiae medicae applicata. Acc. praevia methodus hydrostatica explorandi mineras. 6 leaves, 66 pp., 2 leaves. 4to. Wrappers. Geneva, 1693. \$ 9.75
Fulton, Robert Boyle, 190. - First Latin edition of one of Boyle's standard works. "The first tract in English upon the determination of specific gravity"(Fulton). - Slight hole on the title. Browned.
53. L a n c i s i, G. M. De motu cordis et aneurismatibus, opus posthumum. 2 leaves, 28 and 219 pp. With 8 folding plates. 4to. Vellum. Naples, 1738. \$ 11.75
Lancisi notes the frequency of cardiac aneurysm, distinguishes between aneurysma cavities with thin and thick walls, and notes heredity, syphilis, asthma, palpitation, violent emotions and excesses as prominent causes"(Garrison). - Somewhat waterstained.
54. B a r t h o l i n u s, Thomas. Anatome renovata, non tantum ex institutionibus Caspari Bartholini, sed etiam ex observationibus ad circulationem Harveianam et vasa Lymphatica directis. 16 leaves, 807 pp., 9 leaves. With the famous frontispiece(dissection), portrait and about 100 anatomical plates. Stout 8vo. Calf. Lyons, 1677. \$ 7.00
Greatly enlarged edition with numerous new plates. Only three plates missing, besides complete and fine copy.
55. (On the eye). J a n i n, Jean. Mémoires et observations anatomiques, physiologiques et physiques sur l'oeil et sur les maladies qui affectent cet organ. 40 pp., 474 pp., 3 leaves. With engraved vignette. 8vo. Old calf. Lyons, 1772. \$ 7.50
First edition. This work is remarkable for the tract on the "Fistula lacrimalis".
56. (Alchemy, distillation). - P e n o t u s, B. G. Tractatus varii de vera preparatione et usu medicamentorum chymicorum. Acc. tractatus de lapide philosophorum. 2(3)leaves, 249 pp., 9 leaves. With several, strange woodcuts illustrating the treatise 'De lapide philosophorum'. 8vo. Old limp vellum. Basel, 1616. \$ 7.00
R a r e ! - We only mention: "De mineralibus, sulphure, salibus, oleis, argento et auro, de spagyricorum medicamentorum dosibus, regulae cabalisticae", etc. - This edition is augmented by an interesting treatise on the 'Lapis philosophorum', with quite curious woodcuts. - Only one leaf of the preface missing, besides complete.

57. Marcellus Empiricus. De medicamentis empiricis, physicis ac rationalibus liber. Per J. Cornarium. - Galenii libri novem, opera J. Cornarii. Two parts. 252 pp., 6 leaves, 178 pp., 4 leaves, 1 blank leaf. With nice large woodcut initials; four printer's devices. Folio. Modern half vellum. Basel, Froben, 1536. \$ 18.00
RARE EDITIO PRINCEPS! "Erste und seltene Ausgabe" (Choulant).
 Choulant, Handbuch, p.221/2. Pritzel 5802. - This work, compiled in support of the works of Scribonius Largus and Pseudo-Plinius, is of special interest on account of its botanical contents claiming a great number of names of plants (a.o. celtic). Contains also large chapters on diseases of the teeth: "De dentium doloribus, dentifricia diversa, ad lichenem et elephatiasim," etc. etc. - The second work contains the following Galenic writings with commentary of Cornarius: De causis respirationis, de utilitate et difficultate respirationis, de uteri dissectione, de foetu formatione, de semine, etc. - Several leaves partly very waterstained, otherwise large copy.
58. Jamblicus. De mysteriis Aegyptiorum, Chaldaeorum, Assyriorum, Proclus in Platonium Alcibiadem de anima atque daemone. Idem de sacrificio et magia. Porphyrius, de divinis atque daemonibus. Psellus de daemonibus. Mercurius Trismegistus, Pimander. 543 pp. Printer's device. 16mo. Old limp vellum. Lyons, 1552. \$ 4.75
 Caillet II, 5489: "Receuil fort rare et recherché"....and about Jamblicus: "Précieux document sur l'hermétisme et le magisme qui fleuraient chez les grands peuples de l'antiquité et en particulier chez les Orientaux". Last leaves stained, otherwise nice copy.
59. Cowper, W. Anatomia corporum humanorum. 6 leaves, 61 and 3 leaves. Fine allegorical frontispiece, 114 excellent anatomical plates and four additional plates with five figures not occurring in this edition; vignette on the title. Royal folio. Original calf. Leyde, Lan-gerack, 1739. \$ 35.00
 "Only nine of the 114 plates were original with Cowper. All the others belong to Bidloo. For this aggravated literary piracy, Bidloo arraigned Cowper before the Royal Society of England" (Pilcher). The four additional plates with five figures on the urethral glands are not mentioned by Choulant-Frank and are usually contained only in the 1750-edition. - The binding somewhat scratched. The plates in excellent impressions.
60. Leonardus, Camillus, from Pesaro. Speculum lapidum, cui accessit sympathia septem metallorum Petri Arlensis de Scudalupis. 19(21) leaves, 499 pp., 18 leaves. 8vo. Old limp vellum. Paris, 1610. \$ 9.00
 Caillet 6544: "L'ouvrage d'Arlensis, célèbre astrologue italien, est des plus rares car presque tous les exemplaires furent supprimés à l'époque, pour ne pas divulguer les grands secrets qu'il renferme". With full page woodcut showing seven different metals. Leonardus' above work is one of the earliest books on jewels and precious stones. The work of Petrus Arlensis, on astrology and alchemy, is very rarely to be found. - Title and portrait missing, therefore the low price of this rare book; the text itself absolutely complete.
61. Liébaux, Jean. Quatre livres des secrets de medecine et de la philosophie chymique. Esquels sont descrits plusieurs remèdes singuliers pour toutes maladies. (8), 293 and 15 leaves. With numerous nice woodcuts relating to distillation. Stout 8vo. Old vellum. Lyons, 1593. \$ 9.50
 Rare French, well illustrated edition of this rare work. The four books treat of: I. Que c'est la Destillation. II. Des eaux destillées. III. Des huiles. IV. de l'eau de vie, des sucs, des sels, du borax, de l'or potable. - Eight preliminary leaves, containing only title and dedication, missing; the text absolutely complete. Nice copy.

62. M a l p i g h i, M. Opera posthuma. Emendavit P. Regis. 8 leaves, 387 pp. With engraved frontispiece and 19 interesting copper plates. 4to. Vellum. Amsterdam, 1698. \$ 17.50
The most important of the treatises contained in the 'Opera posthuma' is certainly the "Epistola de structura glandularum conglobatarum consimiliumque partium", on structure of glands and teeth, illustrated by very instructive plates, two of which showing teeth. Besides we mention "Responsio ad epistolam de recentiorum medicorum studio", etc. - Last leaves waterstained on the upper margins, back cover of binding slightly damaged.
